Sugar Shares in the Lead-Trading Influenced by an Unconfirmed Rumor of Another Issue of Bonds.

At New York, yesterday, money on call was easy at 1 per cent.

Prime mercantile paper, 21/2@31/2 per cent. Sterling exchange was barely steady, with actual business in bankers' bills at \$4.871/2@ 4.87% for demand and at \$4.86%@4.86% for sixty days; posted rates, \$4.871/204.88 and \$4.881/404.89; commercial bills, \$4.85%.

Silver certificates, 644c bid. Bar silver closed at 631/2c per ounce; Mexican dollars, 61%c; at London bar silver closed at 29%d. Total sales of stocks were 291,414 shares, including the following: Atchison, 3,800; American Sugar, 98,600; Burlington, 25,500; Chicago Gas, 21,700; Distilling, 3,400; General Electic, 5,200; Louisville & Nashville, 5,400; Manhattan, 4,700; Lead, 5,400; New Jersey Central, 10,400; Northwestern, 7,700; Pacific Mail, 3,400; Rock Island, 11,100; St. Paul, 28,000; Western Union, 7,100.

Speculation was active on the New York Stock Exchange yesterday, and the transactions exceeded even the heavy totals of the past few days, approaching nearly to the three-hundred-thousand mark. The leader in the trading was the old-time favorite, Sugar, and next in point of activity were the grangers, Chicago Gas and New Jersey Central. Business was better distributed than usual, and some of the specialties came in for a share of speculative attention, London traded on both sides of the account a little the heaviest, perhaps, as seller, but there was good buying on Western orders, and late in the day Washington houses were buyers on a report, but a very vague one, that a government bond issue was in contemplation. A large part of the deal-ings was the covering of short contracts, and occasional demonstrations were made against the market in order to enable the shorts to buy back their stocks without paying too dearly for them. The tendency of the market was decidedly toward higher figures during the day, with occasional refigures during the day, with occasional reactions, due partly to bear raids and partly to realizing. The greatest buoyancy was felt in the final dealings, the market closing at or near the top figures touched.

Sugar reacted % in the early trading, but a newly formed bull pool in the stock took control and sent prices up 3%, with a reaction of 1½ and a rally of %, making the gain on the day 21/4. The preferred advanced 1/2. An attack was made on Man-

hattan in anticipation of an unfavorable unusual report expected to-morrow and the stock fell off 134 to 10512, but when the pressure was withdrawn by the bears there was a full recovery, later receding %, and finally rallying %. In the grangers St. Paul and Rock Island closed within % of the highest figures touched, being 1 and 1% higher, respectively, than last night's closing. Burlington shows a gain of 1% and Northwest of 1%, both closing at the best Other advances on the day were: and Northwest of 1½, both closing at the best. Other advances on the day were: Erie preferred, 2¼; Michigan Central, 2½; C., C., C. & St. L. and Baltimore & Ohio, 1¾; New York, Chicago & St. Louis seconds preferred, 1½; Rubber, 1¾; Delaware, Lackawanna & Western, American Cotton Oil preferred, American Cable and Pittsburg, C., C. & St. Louis, 1¼; Pittsburg, C., C. & St. Louis preferred 2, and Chicago Gas and Lead 1 per cent. Hocking Valley preferred shows a decline of 2½, C., C., C. preferred shows a decline of 21/2, C., C., C. & St. L. preferred 13/4 and Long Island 11/4.

There was an active demand for the leading railroad mortgages in which London houses took a large part. There was also good buying for the Western account and the sales reached the high total of 2,681,500. The Texas Pacific and Atchison issues were The Texas Pacific and Atchison issues were most prominent in the dealings. A very general advance was recorded, leading in which were: Union Pacific, Lincoln & Colorado firsts, 5 per cent.; Indiana, Decatur & Springfield firsts trust receipts, 4; Union Pacific, Denver & Gulf firsts, 1%; Louisville & New Albany fives, and General Electric debenture fives, 1½; Northern Pacific seconds, 1½; Northern Pacific seconds, 1½; Northern Pacific consol fives, 2; tered and Northern Pacific consol fives, 2; Kanawha & Michigan firsts, Ohio Southern Kanawha & Michigan firsts, Ohio Southern firsts, St. Louis & San Francisco general fives and St. Louis & San Francisco consol

LOCAL GRAIN AND PRODUCE. Trade Improving in Some Lines-Eggs

Advance-Poultry Firmer. The cooler wet weather has improved trade with leather dealers, boot and shoe merchants and dry goods houses, and on Commission row more was doing yesterday. In prices changes were few. Sugars were firm at the advance of Thursday and further advances are looked for in the near future. Coffees are in stronger position. The poultry market is firmer, but no advance in prices is looked for before next week, when a higher market will not be a surprise. Eggs advance and shippers yeserday were paying 17 cents. On strictly fresh eggs a half a cent better price could oe obtained. Fruits and vegetables of all kinds are meeting with better sale than during the mild weather, but so large is the supply that prices rule easy. THE TRADE REVIEW

GOOD SIGN IN THE FACT THAT ALI EXPECT BETTER TIMES.

Dun & Co. and Bradstreet Discuss the Conditions That Have Long Depressed Business.

NEW YORK, Nov. 9 .- R. G. Dun & Co.'s weekly review of trade, which issues tomorrow, will say: Business has been waiting the greater part of the past week, and elections are expected to give it a sharp stimulus. Whether men are right or wrong in expecting better times, the fact that they expect them tends to make things better. In the speculative market there was scarcely any movement and nothing favorable to holders. Wheat is 2 cents higher, but with receipts of only 3,845,032 bushels, against 6,598,477 bushels the same week last year, there is little encouragement, because stocks in sight are far beyond all previous records. Atlantic exports have been only 552,317 bushels, against 947,563 last year, and the price has advanced 1/2 cent, but there is scarcely any confidence that present prices, low as they are, will be maintained. Corn has fallen about 2 cents, notwithstanding the fact that Western receipts were only about 1,017,693 bushels, against 2,494,647 bushels last year, and Atlantic exports only 72,732 bushels against 662,394 last year, for statistics have little effect when the supply is believed to be so far short. Cotton has declined 1/8 to 1/8 of a cent, which is again the lowest price ever recorded and Oats-Nov. appears to mean a definite decrease in production hereafter, as in most of the Southern States the prices now realized are not remunerative. For the present the stocks here and abroad are large enough to kill any speculation.

The output of pig iron was larger by 7,731 tons on Nov. 1, when it was 158,866 tons weekly, than it was Oct. 1, and larger than a year ago, but it is still about 13 per cent. below the output last May, before the great depression began. It is noted that nearly all the furnaces in the region depending on Connellsville coke and lake ore are now in operation, with an output of 89,000 tons weekly, out of a maximum in that region of 94,000 tons, but Bessemer iron is rather weaker in Pittsburg, and prices for finished products of iron and steel have not improved. Some of the wire rod mills have closed for lack of orders, and a few of the large steel making concerns have reof the large steel-making concerns have reduced hours of work. At the same time there is a decided improvement in the tone of the market and a general confidence that

the business will now improve.

Scarcely anything is doing in woolen goods for spring delivery, and the demand for fall and winter goods has nearly disappeared. In general it is believed that the spring orders thus far are not more than half the usual quantity. The sales of wool at the three chief markets of the East have been only 3,575,600 pounds, against 3,864,700 last year, and 8,215,000 in 1892 for the corresponding week. There is no speculative buying and manufacturers are purchasing only for their immediate needs, so that the prices, though averaging about 1/4 cent lower than a month ago, show no tendency as yet to improve. The failures during the past week have been 261 in the United States, against 356 last year, and forty-two in Canada, against thirty-seven last year. There have been a few failures of consequence during the week, but none of extensive in-

Bradstreet's Review.

NEW YORK, Nov. 9.-Bradstreet to-morrow will say: Interest in the elections this week naturally tended to restrict the volume of trade, particularly in the South where it interfered with mercantile collections. But within a few days the influence of more seasonable weather West/ and Northwest, together with the emphasis with which political questions have apparently been settled, have increased the confidence of many merchants and manufacturers in a ment in general trade in the near future. Chicago and St. Louis manufacturers and business men already report evidences of a tendency on the part of interior buyers to purchase for future delivery, and from such iron centers as Philadelphia, Pittsburg and Chicago relatively greater steadiness is reported in quotations for staple brands of iron and steel than for months past. There is an increased shipment of anthracite coal both by lake and by rail within the week and a stimulated demand for shoes, hats and clothing. Foreign competition with domestic plain

woolen dress goods is noticeable. Free orders have been placed for delivery after Jan. 1, and American fleece wools, from the effects of competition with Australian, and quotations continue easier. Print cloth stocks are reduced in volume and prices are steady. Domestic woolen mills are fairly well employed. Returns of gross earnings of 107 railroads for October show an average decrease of 3.1 per cent., compared with those of October, 1893. September showed a decrease of 5 per cent. from that month in 1893. The granger, central, Western and trunk-line roads show comparatively large trunk-line roads show comparatively large decreases in comparison with the world's fair traffic a year ago. Southern roads, with a gain of 7.9 per cent., again make the best showing, and the Southwestern and Pacific groups also show favorable comparisons with last year.

While prices for iron and steel shapes, for Bessemer pig and steel billets are practically steady, there is another net price this week for wheat, and lard, and coffee, and sugar have advanced fractionally also and sugar have advanced fractionally also, There has been a further recession in quo tations for corn and for oats, and general commercial conditions at the South continue to struggle with another decline of %c on cotton.

Bank clearings at seventy-five cities

throughout the United States this week amount to \$950,600,000, or 2.5 per cent. more than in the previous week, 2 per cent. more than in the first week of November, 1893, and only 20 per cent, smaller than in the corresponding week two years ago. The favorable indication is found in previous weeks' aggregates of clearings, having been over 30 per cent. smaller than in corresponding weeks two years ago.

Exports of wheat (including flour as wheat), both coasts of the United States and Canada, as reported exclusively to Bradstreet, aggregate 2,689,000 bu this week, against 2,934,000 bu last week, 2,813,000 bu in the week one year ago, 3,885,000 bu two years ago, 4,490,000 bu three years ago and as contrasted with 2,323,000 bu in the first

week of November, 1890. Hill as a Train Boy.

Chicago Record's New York Letter. It is not generally known that Senator has risen from humble origin and that he was the original "train boy" on the New York Central railroad—the first urchin, I believe, that ever sold newspapers, cigars and chewing gum on the rail-road cars in this State. He secured the privilege from Dean Richmond, then man-ager of the section of what is now the New York Central system between Syracuse and Rochester, and finally operated the whole line between Buffalo and Albany, having a number of other boys to assist him. He might have been a millionaire also had he not gone back to school when he was seventeen years old with an ambi-tion to study law and allowed himself to drift into politics as soon as he was ad-mitted to the bar.

THE SHORTS SUFFER

CHICAGO WHEAT WEST UP YESTER-DAY BY CONVULSIVE JUMPS.

Corn and Oats Made Grins Less Than a Cent and Provisions Were Dull, but Some Higher.

CHICAGO, Nov. 9 .- It was a day of grief for shorts in the wheat market. Spurred by diminishing receipts and sharp foreign demand, prices went up in convulsive jumps and finished with 1%c gain for May. Corn followed reluctantly, closing but %c higher for May, and May oats gained an equal amount. Provisions were dull, but closed slightly higher.

Wheat was again higher at the opening. The Northwestern receipts were light and the Liverpool cablegrams surprisingly strong. That gave the market its opening direction, and cablegrams confirmatory of the early advance at Liverpool were received later. New York wired that second cablegrams brought buying orders. New York sent a liberal dose of buying orders here, and that market led Chicago in the advance which occurred. Orders were received here for ground feed to go to western Iowa. Primary market receipts were the smallest received since deliveries from the new crop got fairly under way. The weak feature and the only one in the day's movement was the seaboard clearances, which were light. May wheat opened at from 594c to 594c against 58%c, sellers, at the close yesterday. It sold off to 591/sc in a short time, but soon recovered, and kept advancing until it struck 59%c. There were intermediate fluctuations between 59%c and 59%c, but in spite of free realizing the demand on the soft spots was sufficient to give the shorts a scare, and as the market was in its post meridian stage the price was cavorting around 60c. Rumors of a heavy business at the seaboard in cash wheat for export caused the market to close strong. New York reported thirty boat loads taken there and ten loads at outports. May wheat advanced here to 60%c and closed at 60% 60% c.

Corn refused to stir out of its recent sluggish indifference. The elevator people were sellers of corn for May, presumably against purchases of new corn to arrive in December and January. May opened at from 50c to 50%c and then slid back to 49%c. After that 50@50%c were the most frequent quotations until nearly the end, when it

row range, and few sales were made. May started at 32%c, sold down to 31%c and Provisions were firm but dull. The cash demand was said to be good. Closing prices were the best for the day, and show the following gains: Pork and lard are up Place and ribs 21/2c.
Estimated receipts for to-morrow: Wheat, 75 cars; corn, 180 cars; oats, 115 cars; hogs, Leading futures ranged as follows:

Another dull session was passed in the

oats market. Fluctuations were entirely in sympathy with corn and confined to a nar-

rose to 50%c. It closed at 50%c.

Daily, Sunday and Weekly

The Journal is first of all a news paper. Its primary object is to publish the news, and to procure this it spares no pains or expense. Besides the service of the Associated Press, which covers foreign countries as well as the entire United States, it has a corps of special correspondents, who give attention to those events and obcurrences that are likely to be of particular interest to the Indiana

Its Washington Bureau

Was established for the purpose of looking after matters in which the State and its people are concerned, and is under the management of a gentleman well acquainted with the local business and political issues.

It has a correspondent in every cown of importance in the State, and is constantly increasing its facilities for obtaining information from every quarter.

Its staff of city reporters is large, and its local departments are unexcelled. As a newspaper it is far better equipped than any other in the State, and welcomes comparison with its contemporaries in any and all of its departments. With all, it endeavors to be accurate and trustworthy, printing the news, whatever it may be, without personal or partisan bias.

THE SUNDAY

Is a paper that gives more attention to miscellaneous literature than the other editions, and contains in its sixteen, and often twenty, pages a variety of choice reading matter that satisfies the most exacting taste.

The Indiana State Journal

(Weekly Edition) is a large 56-column paper, carefully edited, with a special view to the wants of Indiana readers, both in its general and political news. Its subscription price, \$1.00, with reduction to clubs, places it within the reach of all, and no campaign contribution can be so effective as when spent in furnishing this paper to readers who need Republican doc-
